專案

Collect2Day App

使用 Flutter 開發全功能跨平台電商 App，涵蓋購物車、結帳、訂單追蹤與優惠券管理等完整流程。核心貢獻包含整合 AI 影像辨識、處理 多平台商品數據，並透過重構通用組件確保 UI 設計的一致性。

OneWordz App

使用AI產生內容的英語單字APP，單字卡及例句皆可播放語音、另有單字測驗及AI口說老師可練習口說及聽力。在[App Store](#)與[Google Play Store](#)中可以下載。

OneMMS App

使用Flutter重構原生的內勤人員APP，串接第三方即時通訊服務，並提供報表、新案件通知功能供使用者依照權限存取。因Apple政策，僅能在[Google Play Store](#)中公開下載。

Earth Mission App

企業ESG專案APP，透過養成良好的環保習慣，獎勵使用者點數換取虛擬/現實獎品。在App Store與Google Play Store中可以下載。

Ya-Hsuan Chang (Shayne Chang)

5+ years of experience in building Flutter applications from scratch, with a focus on BLoC/Riverpod architecture and IAP integration.

My background as a top-performing KPI achiever in banking and a retail franchise owner has shaped my pragmatic approach to development. I combine technical skills with 3+ years of leadership experience to ensure clear communication, handle project pressure, and deliver reliable code that meets real-world business needs.

Others

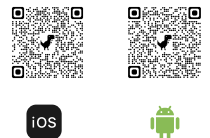

Project

Collect2Day App

Developed a cross-platform marketplace app with Flutter, implementing end-to-end flows from cart/checkout to order tracking. Key contributions include integrating AI-powered image detection, handling complex multi-marketplace product data, and refactoring shared components to ensure UI consistency.

OneWordz App

An English vocabulary APP with audio available. There are also exam and AI speaking teachers to practice speaking and listening. Available on [App Store](#) and [Google Play Store](#).

OneMMS App

Refactoring native back-office staff APP using Flutter, with third-party instant messaging services, and provide reports and push notification for users to access according to their permissions. Due to Apple policy, it can only be publicly downloaded in the [Google Play](#).

Earth Mission App

The corporate ESG project APP rewards users with points in exchange for virtual/real prizes by developing good environmental protection habits. It can be downloaded from the App Store and Google Play Store.
